

Assessment/Evaluation Plan

Assessment and evaluation are necessary in order to monitor student progress. The assessment and evaluation techniques used in the class will be fair and transparent.

Formative Assessments: This form of assessment occurs during instruction and is designed to check the students' understanding.

- Class Assignments
- Homework Assignments
- Journals
- Essays (writing process)

Summative Assessments: This form of assessment occurs after instruction and measures how much the students have learned.

- Unit Tests
- Projects
- Essays (final draft)
- Exams
